McALISTER'S
METAL RECYCLERS

PTY LIMITED

ENVIRONMENTAL POLICY

McAlister's Metal Recyclers is committed to high operational standards that embrace the principles of sound environmental management at its offices, workshop facilities and customer sites.

The company will define the environmental responsibilities and accountabilities of personnel that have the potential to affect the environment.

Documented procedures will be maintained to assist employees and sub-contractors in carrying out their duties in accordance with company requirements.

The company will ensure that employees and sub contractors have and maintain the environmental skills and awareness for the tasks undertaken.

The company will understand the potential for their operations and products to affect the environment, both from normal operations and from abnormal or accidental events.

Regular environmental audits of the operations and management systems will be carried out by personnel who meet appropriate standards of competence and objectivity.

The company will ensure environmental compliance with relevant legislation, company and customer standards / procedures.

All employees will report any non compliance to environmental standards / legislation and action taken to rectify.

WAYNE McALISTER

Managing Director
